

Since 2006, our mission at Think Research has remained focused – to empower clinicians with easy-to-use, evidence-based tools to deliver better care.

At Think Research, we develop knowledge-driven tools that empower clinicians to provide the best evidence-based care, resulting in better outcomes. We're connecting clinicians, facilities, systems and entire healthcare teams with the highest quality content and the tools to put it into practice. Our beautifully-designed applications bring leading practices to the point of care.

PRODUCTS

EntryPoint Platform

Delivering secure cloud-based clinical applications

PatientOrderSets

Ensuring success in value based healthcare with clinical evidence support at the point-of-care

eForms

Streamlining the admissions process

ProgressNotes

Facilitating collaboration across all phases of care to tell the whole patient story

SpotlightAnalytics

Providing access to real time data and analytics for quality improvement

MedRec

Accurately streamlining the medication reconciliation process across all phases of care

TxConnect

Building collaborative evidence sharing networks of healthcare organizations

10,000+
clinical
documents

4
partner
applications

900+

clinicians
everywhere

SHARABLE CLINICAL CONTENT AT THE POINT OF CARE

Our knowledge-driven, evidence-based tools help bridge the 17-year lag time it takes for medical research to come into practice.

SECURELY ACCESSIBLE THROUGH ANY MOBILE OR DESKTOP DEVICE

Our products are housed in our integrated, customizable platform, EntryPoint.

A COLLABORATIVE APPROACH TO BETTER PATIENT OUTCOMES

Our technology brings clinicians across the continuum of care together, making patient care more collaborative and seamless.

EntryPoint

ONE PLATFORM DELIVERING SECURE CLOUD-BASED CLINICAL APPLICATIONS

EntryPoint, our secure cloud-based platform enables access to not only our suite of applications but to third party and partner applications such as **Health Outcomes Worldwide**, **INTERACT™** and **MED-PASS**.

OUR APPLICATIONS INCLUDE:

- PatientOrderSets
- eForms
- MedRec
- ProgressNotes
- TxConnect
- SpotlightAnalytics

TRACK PRACTICE WITH AT-A-GLANCE METRICS

Customizable dashboards provide insightful analytics and visibility into high-level practice trends as well as ordering data. Giving clinicians and administrators the information they need to streamline ordering practices and deliver the highest quality of care.

EntryPoint works for clinicians and administrators across the complete continuum of care.

PRODUCTIVITY IMPACTS

- Makes the entire care team more efficient
- Point and click simplicity
- Easy access to healthcare applications
- The right information, to the right people, at the right time.

EntryPoint works with your IT system, regardless of where your organization is on their IT journey. EntryPoint can pull in patient demographic information, pre-populate applications to save time, ensure data accuracy and provide valuable information.

To learn how EntryPoint can help your practice or schedule a demo, contact learn@thinkresearch.com or 1.877.302.1861.

organizing the world's health knowledge
so **everyone** gets the best care
