

Patient Order Sets

EVIDENCE-BASED CLINICAL RECOMMENDATIONS, RIGHT AT YOUR FINGERTIPS

More than a simple set of checklists, Patient Order Sets are sophisticated medical solutions that offer Canadian evidence-based treatment options in a single, user-friendly interface.

Developed by our multi-disciplinary clinical team, these support tools are designed to fit naturally into your Canadian health care organization, providing a complete solution to putting best practices into action.

FASTER CARE

We structure accurate evidence-based information so you can make timely diagnostic and treatment decisions at the point of care. The result? Less time with your notepad and more time with patients.

STANDARDIZED CARE

Our Clinical Research & Development team leverages the latest medical research, standards and industry best practices to develop our Order Sets. As a member of the network, you'll have the opportunity to learn from other Order Set implementations.

ANALYZED CARE

Monitor and analyze clinician activities and create audit feedback reports that can facilitate clinical change management programs and quality improvement efforts.

A MODERN TOOL FOR MODERN HEALTH CARE

Gone are the days of relying on memory or out-of-date information. The use of Order Sets enables better patient outcomes through improved care coordination.

KEY FEATURES

- Reduce cognitive burden and shift clinician behaviour
- Structured clinical modules
- Real-time data collection
- Printer-friendly and adaptable to any workflow

ACCESSIBLE AND INTEROPERABLE

Staying connected with your care team has never been easier. You can access Order Sets through Entrypoint, our web-based platform, which is built into the most advanced clinical systems (i.e. Epic, Cerner, MEDITECH, Allscripts, Quadramed).

CUSTOMIZED PROJECT SUPPORT

Health care solutions are never one size fits all. That's why we start with our expert clinical content and powerful software tools, then customize the solution to meet your geographical and organizational needs. Additionally, our Value Added Offerings allow your organization to expand into more advanced areas. To learn more about how this service can benefit you, contact cs@thinkresearch.com
