

# eForms

Digitize documentation and streamline your admissions workflow

Replace paper forms with a comprehensive digital documentation solution that lets long term care and seniors care homes easily capture information while unlocking workflow efficiencies

## Simplify Your Form Workflow

**PointClickCare and MatrixCare Compatible**  
eForms integrates with PCC and MatrixCare, removing barriers to adoption and speeding up workflows.

### Pixel-Perfect Forms

We convert your forms into pixel-perfect, digital versions aligned to your existing processes and optimized to your workflow needs.

### Easy Setup

End-to-end support implementation process ensures your paper forms go digital without a hitch, including change management assistance.

### Capture Patient Consent

eForms supports a simplified digital patient consent workflow assisted by DocuSign technology, with forms completed via computer or tablet.

### Secure Storage

Easily access signed forms through our web-based interface. eForms is backed by enterprise security and is HIPAA compliant.

### Data-Driven Reporting

Data-rich digital documents are backed by real-time tracking, reports and dashboards. Track signatures, compliance metrics, adoption and more.

## Delivering Key Benefits

Works with your existing PCC or MatrixCare EHR

Save time on form workflows. eForms clients report up to **65% increased efficiency**<sup>1</sup>

Reduce form errors with accurate digital capture

Easy adoption with user-friendly interface featuring form field prepopulation

<sup>1</sup>Think Research data from 300+ eForms care-home clients
